**Subject: Submission of the Annual Greenhouse Gas Emissions Report for Reporting Year 2025, Eastern Dunes Field Central Processing Facility 1 (CPF-1)**

Dear Sir or Madam,

Pursuant to Article 6 of Federal Decree-Law No. 11 of 2024 on the Reduction of Climate Change Effects and the Agency's Technical Guidance for Measurement, Reporting and Verification of Greenhouse Gas Emissions in Abu Dhabi Emirate, Dunes Energy Company hereby submits the annual emissions report for Eastern Dunes Field Central Processing Facility 1 (CPF-1) covering the period 1 January to 31 December 2025.

| Summary of reported emissions     | Value                                        |
|-----------------------------------|----------------------------------------------|
| Carbon dioxide (CO <sub>2</sub> ) | 225,851 t                                    |
| Methane (CH <sub>4</sub> )        | 601.5 t (16,842 t CO <sub>2</sub> e, GWP 28) |
| <b>Total Scope 1 emissions</b>    | <b>242,693 t CO<sub>2</sub>e</b>             |
| Total hydrocarbon production      | 19.21 MMboe                                  |

**Enclosures**

| # | File                                              | Content                                                                                                                                              |
|---|---------------------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------|
| 1 | DEC-EDF-CPF1_EAD-MRV-Emissions-Report_RY2025.xlsx | Annual emissions report (EAD MRV reporting template, sheets A to K)                                                                                  |
| 2 | DEC-EDF-CPF1_Monitoring-Plan_Rev4.0.pdf           | Monitoring Plan Rev 4.0 including site schematic                                                                                                     |
| 3 | DEC-EDF-CPF1_Verification-Statement_RY2025.pdf    | Verification statement KVS-25-094, Kestrel Verification Services LLC                                                                                 |
| 4 | evidence/                                         | Supporting evidence: meter data, flare log, diesel invoices, production and gas balance, gas analyses, calibration certificates, LDAR survey summary |

**Declaration.** We confirm that the enclosed report is complete and accurate, has been prepared in accordance with the approved Monitoring Plan (Rev 4.0) and the Agency's Technical Guidance, and covers all greenhouse gas emissions within the facility boundary. One minor data gap (LP flare meter FT-5102, 11 to 13 March 2025) was identified, substituted in accordance with the Monitoring Plan and is reported in sheet H1.

For any clarification please contact Dr. Priya Nair, GHG & Energy Lead (priya.nair@dunesenergy.example, +971 2 555 0412).

Yours faithfully,
